**Certifications:** [Professional FrontEnd Dev - Meta](#) | [Web Dev Foundation - Nasscom](#)

## WORK EXPERIENCE

### Business Hero

Bengaluru, Remote

FullStack Developer

Jan 2025 - Nov 2025

- Built WhatsApp AI driven lead-generation flows with interactive UI components, multi-linguistic conversations, AI voice agents, increasing qualified lead capture by 25–30% and reducing user drop-off across campaigns.
- Designed and implemented WhatsApp AI agents and groups-management tools, improving automated ticket generation, query-handling speed by ~40% and supporting multi-organization workflows.
- Built personal Whatsapp AI agents focused on managing schedule, events, organise meets and calendar.
- Developed a web-scraping and analytics tool that consolidated organization-specific data and cut manual data-processing time by 60%, enabling faster decision cycles.

### Mentorsity

Delhi, Remote

FrontEnd Developer Intern

Dec 2024 - Jan 2025

- Developed the complete user interface and backend of an EdTech website using react and express, ensuring responsive design and seamless user experience across Home, Courses, and Blog pages.
- Collaborated with a cross-functional team of 8, helped design database, and worked on backend api's.

### Techno Infotech

Pune, Maharashtra

Trainee

Oct 2024 - Dec 2024

- Provided technical support for Proxmox virtualization software, resolving 90%+ queries, ensuring smooth operations and in parallel leading POCs for new clients.
- Configured virtualization services for memory, compute, network, and storage, achieving 100% HA.
- Collaborated with 10+ clients to gather business requirements and delivered tailored virtualization solutions, managing meetings and configuring setups to align with organizational objectives.

## PERSONAL PROJECT

### Food Ordering Website

[firsttbite.com](https://firsttbite.com)

NextJs | Prisma PSQL | Tailwind | Cloudinary

- Built a full-stack food-ordering platform with multi-seller support (10+ active sellers), location-based product filtering, Google auth, online payments, and Cloudinary-based media hosting.
- Implemented an admin dashboard with revenue analytics, order tracking, seller management and real-time push notifications to streamline daily operations.
- Included features like time-slot based food availability, customizable added cost for individual products, on scroll pagination for faster responses and dedicated pages for each restaurant and product.

## EDUCATION

Government College of Engineering Jalgaon

Jalgaon, Maharashtra

[B.Tech](#) in Computer Engineering

Graduation Date: Jun 2024
